

Fast / Accurate / Simple / Thorough

Top Manufacturing Company Fast Forensics Case

Problem:

- The Company operated in multiple geographic regions, and operated subsidiary companies, and was considering an acquisition, which needed cyber forensic due diligence to ensure a safe IT integration.
- Despite employing sophisticated prevention technology, the Company also experienced attack behavior which required rapid forensic expertise, but the existing team and tools were too slow and resource constrained for the job.

► Learn more at cycraft.com

Solution:

- The Company bought a pool of 4000 AI-driven fast forensic scan licenses from CyCraft: 300 for the current incident, 1700 for the acquisition, and 2000 licences for future use.
- Current security incidents fully resolved with timelines of all attacker behavior mapped and connected, complete with executed remediation plan, and eradication of attacker behavior confirmed.
- Cyber due diligence requirement fulfilled, acquisition green lit for next stage of due diligence in the M&A process.

Impact:

-  Can scan any number of endpoints at any time
-  Able to discover the most sophisticated and subtle modern attacks
-  Both cloud and on-prem systems covered
-  Incident response plans for mitigating all manner of threats
-  Rescanning to confirm attacker eradication
-  Historical visibility into asset behavior
-  Hidden device and insider threat discovery
-  Full connected maps of all attacker activity
-  Know that incident is full handled

Technology leveraged:

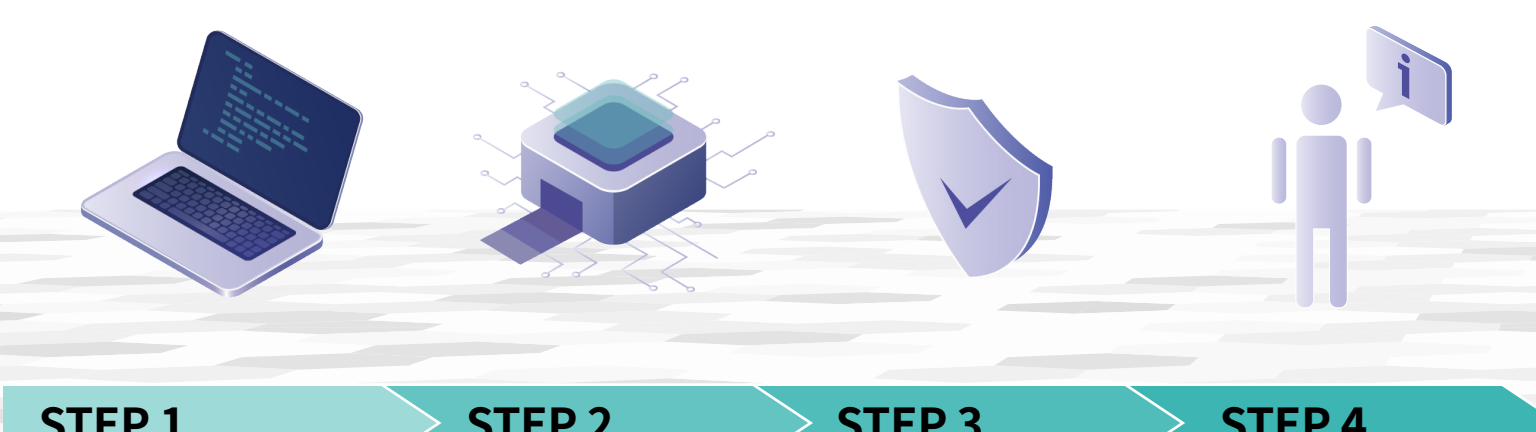

- CyCraft IR: AI-Driven Fast Forensics (License Pool Bundle)

Customer's Take:

"CyCraft's customer support provided excellent communication, incident reports, and response times, leaving us feeling confident and at ease with our security situation."

— Security Analyst

How We Respond to Your Incident

STEP 1 STEP 2 STEP 3 STEP 4

- STEP 1**
Deploy our IR forensic scanner to your endpoints.
- STEP 2**
We receive the scanner data & our AI & experts analyze it.
- STEP 3**
We generate a plan & execute it with you
- STEP 4**
Together we rescan & confirm eradication.

Eradicate hackers faster & more thoroughly than ever before.

25+ Gold Cybersecurity Excellence Awards including Managed Detection and Response, Artificial Intelligence, and Best Cyber Security Company

MITRE | ATT&CK® Evaluations

#1 General, Tactic & Technique detections
#1 Major attack steps alerted
#1 Attack sub-steps alerted

Best of Show Grand Prize Award for Security Solutions at Interop Tokyo 2020
