COMPROMISE ASSESSMENT

Identify Ongoing and Past Attacker Activity in your Environment **F / A / S / T**
Fast / Accurate / Simple / Thorough

WHAT IS IT?

CyCraft Compromise Assessment Services are uniquely designed to provide, in under one day after scanning, a comprehensive, automated, evidence-based analysis and evaluation of your organization's security reality including identifying all ongoing and past incidents of unauthorized access, malicious activity, and indicators of compromise. Following that, schedule a call with an analyst to go over findings and plan remediation.

CRITICAL DELIVERABLES

Rapid automated reporting and human analysis of your site-wide cyber situation, including:

> Full storylines of any & all malicious activity
> Site-wide root cause analysis for malicious activity
> Highly suspicious activity
> Malicious domain, IP, & malware analysis
> Shadow IT analysis
> A step-by-step plan for eradication
> Optional: Eradication confirmation
> Up-to-date CyberTotal global threat intelligence hunting and mapping
> MITRE ATT&CK mapping

> *The most impressive feature is FAST. An incident once occurred, and it took about half a day for CyCraft to inspect 4,000+ endpoints, saving us a lot of time and workforce costs on investigation.*

CYCRAFT

WHY IT MATTERS

URGENT PAIN RESOLVED

> Compliance
Rapidly meet compromise assessment regulations in your industry in a cost-effective way

> Speed with Thoroughness
Compromise assessments are often lengthy and intrusive. With CyCraft you can expedite frictionless site-wide automated investigations in large, OS-hybrid environments across all endpoints and network.

> Truly Actionable
CyCraft CA provides step-by-step actionable intelligence and visibility to resolve all issues discovered across your organization.

BENEFITS TO CUSTOMERS + PARTNERS

> Ease and Speed of Deployment
CyCraft CA deploys with standard deployment methods.

> Minimally Intrusive
CyCraft CA runs with a low footprint across network, memory, and CPU, all of which are adjustable for legacy and resource constrained environments.

> Accuracy
Know the cybersecurity ground truth for your organization. CyCraft CA gives you MITRE ATT&CK validated situation reports, with zero false positives.

> The Human Touch
Analysts debrief you over all threats major and minor side-wide, even if your org is in multiple regions.

※ *Optional network CA with ThreatWall appliance*

HOW DOES IT WORK?

Deploy scanners to endpoints (Win, Lin, & Mac), and optionally a network scanner. CyCraft collects the scanner data, performs automated and human analyses generating a report and presentation, and holds a debriefing session with you to go over what was found and what needs to be done to get back to a good security state.

1. Deploy our scanner to your endpoints.
2. We continuously receive scanner data.
3. Our AI + experts analyze & generate alerts & reports.
4. Our experts help you remediate.

EASE OF USE

> Rapidly deploy on-prem or from cloud in geographically dispersed, hybrid OS environments
> Non-intrusively and quickly get to the cyber ground truth org-wide and understand the efficacy of your blue team and your cyber hygiene
> Debriefing session with analyst to answer all of your questions and provide guidance for how to handle any malicious or suspicious behavior found

WHAT SETS CYCRAFT APART?

CyCraft CA Services are MITRE ATT&CK validated; can reduce forensic analysis time by 99% due to proprietary advancements in forensic AI; provide industry-leading accuracy as relied on by top banks, government agencies, and semiconductor manufacturers; and maintain a 5-star Gartner Peer Insights review rating.

CYCRAFT MEETS GDPR & JAPAN PRIVACY LAWS

> We collect far less data than Windows
> We don't collect payment data, presentation files, messaging/email contents, or anything that would violate GDPR/Privacy laws
> In fact, we aid in GDPR/Privacy law compliance:
> > We stop attackers from stealing your data
> > We enable quicker reporting to meet compliance

CYCRAFT ADVANTAGE
